

L.B.K. LadyBug

L.B.K. LadyBug™ Models

Technical Data and Features

GENERAL: Smallest in the lightweight Spyderco stable, this locking folder incorporates all the features of its bigger brothers except for the clothing clip. Available in six colors, this "loose change" knife makes an ideal choice for a lady's handbag or a youngster's first folding knife.

BLADE: Ground from G2, a high-carbon, chrome-molybdenum, stainless steel, the curved-belly skinning blade features a 50/50 blade of PlainEdge/SpyderEdge with a satin finish. The patented hole-opener allows easy opening.

HANDLE: Tough, glass-filled, thermoplastic DuPont Zytel features the same Volcano Grip pattern as the larger models, but on a smaller scale. A hole on the handle accepts a key ring or cord.

LOCK: The H. McBurnette/Al Mar design allows the knife to be closed one-handed. The positive front lock and a slightly larger heel on the blade prevent the knife from "bottoming" in the handle when in the closed position.

DESIGNER: Spyderco, Golden, Colorado

DIMENSIONS:

LadyBug

Overall length - Open	4.390"	(111mm)
Overall length - Closed	2.515"	(64mm)
Cutting edge length	1.725"	(43mm)
Blade thickness	0.075"	(1.5mm)
Overall thickness	0.30"	(7.9mm)
Weight	0.6 oz.	(16 gr.)
