Little Big Knife:

Term coined by Spyderco to describe a small bladed knife (generally under 3") that is manufactured using features and materials that allow the knife to be used for strenuous or hard cutting, normally done with larger, heavier tools.

Sunday                      Monday                      Tuesday                      Wednesday                      Thursday                      Friday                      Saturday

Spine Jimping:  
Small serrations or texturing located on the spine of a blade where the hand or finger grips. Jimping creates tactile resistance, adds purchase, traction, and slip resistance.

Saturday

Michael Walker LinerLock®:  
Locking system developed by custom knifemaker Michael Walker.  
The blade is locked open by a leaf-like spring that comes in from  
the side, butting up against the tang of the blade.
